

DAY 1: FEBRUARY 22, 2021

ONLINE ROOM 1

17:00 – 17:10	OPENING CEREMONY & PRESIDENTIAL ADDRESS <i>A. Wattiez, UAE</i>	
17:10 – 17:45	KEYNOTE LECTURE 1 – What will stay from COVID-19 in our practice Chair: <i>A. Wattiez, UAE</i> Expert: <i>M. Tahlak, UAE</i>	LIVE
<p>The pandemic has immensely impacted our practice. From the reduction of the clinics to the stop of elective cases, doctors have been obliged to re-invent their way to practice. Some positive aspects have emerged, and the lecturer will explain what will stay from that after the pandemic will resolve.</p>		
17:45 – 19:00	SYMPOSIUM – ETHICON Innovation in Hysterectomy Expert: <i>S. Domingo</i>	
19:00 – 19:10	SPONSOR HIGHLIGHTS – MEDTRONIC	
19:10 – 20:25	Q&A DISCUSSION: Bowel Endometriosis Chair: <i>M. Mueller, Switzerland</i>	Q&A
<p>Bowel endometriosis is still a surgical challenge! Different techniques do exist to tackle this problem. The aim of this session is to discuss the indication and technical challenge of all techniques available.</p>		
19:10 – 19:35	KEYPOINTS – Discussion of Pre-Recorded Lectures <i>(Each speaker will have maximum 5 minutes to discuss key points of their lectures)</i>	
19:10 – 19:15	Bowel Discoid Resection: Indication & Technique <i>M. Malzoni, Italy</i>	
19:15 – 19:20	Segmental Bowel Resection for Endometriosis: Tips n' tricks to be radical but economic <i>A. Wattiez, UAE</i>	
19:20 – 19:25	Tips n' Tricks for radical management of bowel endometriosis <i>W. Kondo, Brazil</i>	
19:25 – 19:30	Linear Resection of the Rectum: Indication & Technique <i>P. Ayroza, Brazil</i>	
19:30 – 19:35	Nose technique for bowel endometriosis <i>J. Leroy, France</i>	
19:35 – 19:50	Q&A Discussion – Questions from Participants' Portal	
19:50 – 20:05	Q&A Discussion – Questions from ZOOM Chat Box	
20:05 – 20:25	Q&A Discussion – VIP Session (Live)	

DAY 1: FEBRUARY 22, 2021

ONLINE ROOM 1

20:25 – 21:45	Q&A DISCUSSION: Adenomyosis Chair: <i>C. Nezhat, USA</i>	Q&A
<p>Adenomyosis is a raising clinical situation that affects quality of life including fertility. This session will cover all aspects of this difficult situation from diagnostic to treatment and outcomes.</p>		
20:25 – 20:45	KEYPOINTS – Discussion of Pre-Recorded Lectures (<i>Each speaker will have maximum 5 minutes to discuss key points of their lectures</i>)	
20:25 – 20:30	Laparoscopic Excision of Adenomyosis: Techniques & Limits <i>H. Gharbi, UAE</i>	
20:30 – 20:35	Outcome of Surgical Management of Adenomyosis <i>A. Setubal, Portugal</i>	
20:35 – 20:40	Hysteroscopic Management of Adenomyosis <i>R. Campo, Belgium</i>	
20:40 – 20:45	IVF Protocol in Adenomyotic Patient <i>H. Fatemi, UAE</i>	
20:45 – 21:00	Q&A Discussion – Questions from Participants’ Portal	
21:00 – 21:15	Q&A Discussion – Questions from ZOOM Chat Box	
21:15 – 21:45	Q&A Discussion – VIP Session (Live)	

DAY 1: FEBRUARY 22, 2021

ONLINE ROOM 2

17:10 – 17:45	KEYNOTE LECTURE 1 – What will stay from COVID-19 in our practice <i>Chair: A. Wattiez, UAE</i> <i>Expert: M. Tahlak, UAE</i>	LIVE
----------------------	---	-------------

The pandemic has immensely impacted our practice. From the reduction of the clinics to the stop of elective cases, doctors have been obliged to re-invent their way to practice. Some positive aspects have emerged, and the lecturer will explain what will stay from that after the pandemic will resolve.

17:45 – 19:00	BEST OF 5 TIPS & TRICKS CONTEST Any Subject in Laparoscopy & Hysteroscopy <i>Chair: H. Ferreira, Portugal</i>	LIVE
----------------------	---	-------------

All surgeons have their particular ways of solving some surgical situations. It is very important to observe those tips and tricks in order to incorporate them eventually in our personal arsenal of techniques.

17:45 – 17:50	Welcome Introduction <i>H. Ferreira, Portugal</i>
17:50 – 18:10	Laparoscopic clinical anatomy and surgical reality? <i>L. Mettler, Germany</i>
18:10 – 18:30	Trips n' Tricks in Smoke <i>Z. Hakim, UAE</i>
18:30 – 18:35	Winners Poland <i>E. Milnerowicz, Poland</i>
18:35 – 18:40	Winners Chile <i>M. Puga, Chile</i>
18:40 – 18:45	Winners UAE <i>Z. Hakim, UAE</i>
18:45 – 19:00	General Discussion
19:00 – 19:10	SPONSOR HIGHLIGHTS – MEDTRONIC

ONLINE ROOM 2

19:10 – 20:25	Q&A DISCUSSION: Niches/Isthmocile Chair: <i>L. Schindler, UAE</i> Co-Chair: <i>A. Matveev, Russia</i>	Q&A
----------------------	--	----------------

Increasing cesarian section rate, bring along an increasing rate of Isthmocile and its cortege of pathology. Managing patients with niches is covered in this session as well as the clinical outcomes in both gynecological and obstetrical aspects.

19:10 – 19:35	KEYPOINTS – Discussion of Pre-Recorded Lectures (Each speaker will have maximum 5 minutes to discuss key points of their lectures)	
19:10 – 19:15	Laparoscopic Treatment of Niches: When & How? <i>B. Amro, UAE</i>	
19:15 – 19:20	Treatment of Niches: What's the point? <i>B. Lawrenz, UAE</i>	
19:20 – 19:25	Hysteroscopic Approach of Niches <i>A. Di Spiezio Sardo, Italy</i>	
19:25 – 19:30	Should We Resect the 2 Edges During Hysteroscopic Surgery of Niches <i>G. Gubbini, Italy</i>	
19:30 – 19:35	Outcome of the Surgical Management of Niches <i>K. Isaacson, USA</i>	
19:35 – 19:50	Q&A Discussion – Questions from Participants' Portal	
19:50 – 20:05	Q&A Discussion – Questions from ZOOM Chat Box	
20:05 – 20:25	Q&A Discussion – VIP Session (Live)	
20:25 – 21:45	Q&A DISCUSSION: Nerves sparing benign and malignant disease – Concept and Techniques Chairs: <i>V. Bezhenar (Russia), E. Zupi (Italy)</i>	Q&A

Nerve sparing techniques have been developed in the late 50s for oncological purposes. The more recent advances in surgery for deep endometriosis that may affect nerves have raise the discussion of applying those techniques for the treatment of this benign disease. This session will discuss all aspects of this new concept.

20:25 – 20:45	KEYPOINTS – Discussion of Pre-Recorded Lectures (Each speaker will have maximum 5 minutes to discuss key points of their lectures)
20:25 – 20:30	History & Concept of Nerve Sparing Surgery <i>M. Puga, Chile</i>
20:30 – 20:35	Different Level of Nerve Injury: Clinical Applications <i>B. Rabischong, France</i>
20:35 – 20:40	Incorporation of nerve-sparing in the concept of tailored radical hysterectomy <i>D. Querleu, France</i>
20:40 – 20:45	Nerve Sparing Surgery in Endometriosis: Myth or Reality <i>G. Centini, Italy</i>
20:45 – 21:00	Q&A Discussion – Questions from Participants' Portal
21:00 – 21:15	Q&A Discussion – Questions from ZOOM Chat Box
21:15 – 21:45	Q&A Discussion – VIP Session (Live)

ONLINE ROOM 3

17:10 – 17:45	KEYNOTE LECTURE 1 – What will stay from COVID-19 in our practice Chair: <i>A. Wattiez, UAE</i> Expert: <i>M. Tahlak, UAE</i>	LIVE
----------------------	---	-------------

The pandemic has immensely impacted our practice. From the reduction of the clinics to the stop of elective cases, doctors have been obliged to re-invent their way to practice. Some positive aspects have emerged, and the lecturer will explain what will stay from that after the pandemic will resolve.

17:45 – 19:00	TECHNICAL TUTORIAL: Difficult Bladder Dissection: How to deal with it? Chair: <i>H. Gharbi, UAE</i>	Q&A
----------------------	---	----------------

Bladder dissection is a frequent occurrence in Gynecological surgery. If the dissection of a normal bladder is an elective anatomical driven technique, the raise of CS and some benign pathologies as endometriosis can make that dissection tricky. The experts of this session will present their personal approach to tackle this difficulty.

17:45 – 18:05	KEYPOINTS – Discussion of Pre-Recorded Lectures <i>(Each speaker will have maximum 5 minutes to discuss key points of their lectures)</i>
17:45 – 17:50	My technique to tackle difficult bladder dissection <i>A. Wattiez, UAE</i>
17:50 – 17:55	My technique to tackle difficult bladder dissection <i>M. Malzoni, Italy</i>
17:55 – 18:00	My technique to tackle difficult bladder dissection <i>J. Gilabert, Spain</i>
18:00 – 18:05	My technique to tackle difficult bladder dissection <i>R. Botchorishvili, France</i>
18:05 – 18:20	Q&A Discussion – Questions from Participants' Portal
18:20 – 18:35	Q&A Discussion – Questions from ZOOM Chat Box
18:35 – 19:00	Q&A Discussion – VIP Session (Live)

DAY 1: FEBRUARY 22, 2021

ONLINE ROOM 3

19:00 – 20:15	SYMPOSIUM – MEDTRONIC Why, when, and how to operate young on endometriosis patients	
19:00 – 19:05	Video Highlights	
19:05 – 19:10	Welcome & Introduction <i>H. Ferreira, Portugal</i>	
19:10 – 19:40	Radical conservative DIE Surgery in young patients <i>H. Ferreira, Portugal</i>	
19:40 – 20:10	From earlier diagnosis to addressing the age dilemma in surgical intervention <i>P. Pasic, USA</i>	
20:10 – 20:20	Q&A Discussion	
20:20 – 21:45	IMAGING COURSE DAY 1 – How imaging can help the surgeons? Chair: R. Abdeldayem, UAE	LIVE
<p>Imaging has always been important in the diagnosis of different gynecological pathologies. The recent advances in both technology and knowledge have brought an extensive capacity of imaging to help surgeons. The aim of this course is to describe how!</p>		
20:20 – 20:40	2D and 3D assessment of uterus and myometrial pathology <i>C. Exacoustos, Italy</i>	
20:40 – 20:55	Practical Session: Live Ultrasound Scan	
20:55 – 21:15	Abdomino-pelvic deep endometriosis US evaluation <i>A. Di Giovanni, Italy</i>	
21:15 – 21:30	Practical Session: Live Ultrasound Scan	
21:30 – 21:45	Q&A Discussion	
21:45 – 21:50	CLOSING REMARKS <i>A. Wattiez, UAE</i>	

ONLINE ROOM 1

17:00 – 17:10	WELCOME REMARKS & INTRODUCTION <i>A. Wattiez, UAE</i>	
17:10 – 17:45	KEYNOTE LECTURE 2 – Neuropelveology Chair: <i>A. Wattiez, UAE</i> Expert: <i>M. Possover, Switzerland</i>	LIVE
<p>Neuropelveology is a new subspecialty that have been raised recently in front of the emergence of functional disorders due to nerve impairment. Who else than the father of this new specialty can explain to us how it is important!</p>		
17:45 – 19:00	Q&A DISCUSSION: Patient Safety in MIS Chair: <i>F. Badawi, UAE</i>	Q&A
<p>The safety of patients depends on many factors that can be technical or human. The notion of near misses, teams, check list, time out are new processes made to increase the patient's safety. This session will cover all these aspects as well as the psychological challenge for the surgeon facing a complication.</p>		
17:45 – 18:05	KEYPOINTS – Discussion of Pre-Recorded Lectures <i>(Each speaker will have maximum 5 minutes to discuss key points of their lectures)</i>	
17:45 – 17:50	How to Behave When You Face A Medicolegal Investigation <i>A. Watrelot, France</i>	
17:50 – 17:55	Tips to Improve the Safety in the OR <i>B. Rabischong, France</i>	
17:55 – 18:00	How to Avoid Any Delay in The Diagnosis of a Complication <i>P. Koninckx, Belgium</i>	
18:00 – 18:05	Surgical Complication in Minimally Invasive Surgery: What Is Specific <i>G. Centini, Italy</i>	
18:05 – 18:20	Q&A Discussion – Questions from Participants' Portal	
18:20 – 18:35	Q&A Discussion – Questions from ZOOM Chat Box	
18:35 – 19:00	Q&A Discussion – VIP Session (Live)	
19:00 – 19:10	SPONSOR HIGHLIGHTS – MEDTRONIC	

DAY 2: FEBRUARY 23, 2021

ONLINE ROOM 1

19:10 – 20:25	Live Debate – “Is There Still A Space for Meshes” Chair: H. Margossian, UAE	LIVE
<p>The raise of meshes complication has led to a mesh ban. Meshes are still associated with excellent and long-term outcomes. The question of the place of meshes is a very challenging point that will be discussed by two of the world experts in the field.</p>		
19:10 – 20:00	LIVE LECTURE & VIDEO PRESENTATION <i>(Each speaker will have maximum 25 minutes to present their videos live)</i>	
19:10 – 19:35	"There Is Still A Space for Meshes?" <u>Vaginally</u> <i>M. Cosson, France</i>	
19:35 – 20:00	"There Is Still A Space for Meshes?" <u>Laparoscopy</u> <i>R. Botchorishvili, France</i>	
20:00 – 20:25	DEBATE	
20:25 – 21:45	Q&A DISCUSSION: Native Tissue Repair for Prolapse Chairs: A. Wattiez (UAE), E. Zakharchenko (Russia)	Q&A
<p>The recent reluctance to meshes has led to the native tissues repair revival. The perfect anatomical vision of laparoscopy as well as its capacity to repair objectively the defects challenges the classical vaginal approach. The aim of this session is to discuss these most recent approaches.</p>		
20:25 – 20:45	KEYPOINTS – Discussion of Pre-Recorded Lectures <i>(Each speaker will have maximum 5 minutes to discuss key points of their lectures)</i>	
20:25 – 20:30	Is Vaginal Route the Future of Native Tissue Repair? <i>M. Cosson, France</i>	
20:30 – 20:35	What Tissue to Use to Support the Pelvic Organ <i>H. Margossian, UAE</i>	
20:35 – 20:40	Update in Laparoscopic Native Tissue Repair <i>R. Botchorishvili, France</i>	
20:40 – 20:45	Native Tissue Repair vs. Use of Alloplastic material in Pelvic Organ Prolapse Surgery <i>B. Gabriel, Germany</i>	
20:45 – 21:00	Q&A Discussion – Questions from Participants’ Portal	
21:00 – 21:15	Q&A Discussion – Questions from ZOOM Chat Box	
21:15 – 21:45	Q&A Discussion – VIP Session (Live)	

DAY 2: FEBRUARY 23, 2021

ONLINE ROOM 2

17:10 – 17:45	KEYNOTE LECTURE 2 – Neuropelveology Chair: <i>A. Wattiez, UAE</i> Expert: <i>M. Possover, Switzerland</i>	LIVE
<p>Neuropelveology is a new subspecialty that have been raised recently in front of the emergence of functional disorders due to nerve impairment. Who else than the father of this new specialty can explain to us how it is important!</p>		
17:45 – 19:00	SYMPOSIUM – KARL STORZ Clinical practice of the Intrauterine Bigatti Shaver	
17:45 – 18:15	Understand the IBS® setup and application in an ambulatory setting <i>G. Bigatti, Italy</i>	
18:15 – 18:45	The full range of indications <i>S. Ansari, Iran</i>	
18:45 – 19:00	Q&A Discussion	

ONLINE ROOM 2

19:00 – 19:10	SPONSOR HIGHLIGHTS – MEDTRONIC	
19:10 – 20:25	Q&A DISCUSSION: Fluorescence Guided Surgery Chairs: <i>M. Malzoni (Italy)</i> Co-Chairs: <i>F. Sendag (Turkey), Z. K. Nagshabandi (UAE)</i>	Q&A
Laparoscopic surgery has been a revolution thanks to the improvement of the vision by magnification and the shaping of the surgical scene. The addition of the visualization of the inapparent structures revealed by the fluorescence opens the door to new surgical improvement that are going to be demonstrated in this session.		
19:10 – 19:30	KEYPOINTS – Discussion of Pre-Recorded Lectures <i>(Each speaker will have maximum 5 minutes to discuss key points of their lectures)</i>	
19:10 – 19:15	Fluorescence & Bowel Anastomosis: Indication Result & Limits <i>H. Ferreira, Portugal</i>	
19:15 – 19:20	The Use of The Fluorescence On the Oncology <i>M. Mueller, Switzerland</i>	
19:20 – 19:25	Update in Fluorescence Guided Surgery <i>M. Diana, France</i>	
19:25 – 19:30	Can Fluorescence Reduce the Uteric Risk <i>M. Malzoni, Italy</i>	
19:30 – 19:45	Q&A Discussion – Questions from Participants' Portal	
19:45 – 20:00	Q&A Discussion – Questions from ZOOM Chat Box	
20:00 – 20:25	Q&A Discussion – VIP Session (Live)	
20:25 – 21:05	HONORARY LECTURE: From Laparotomy to Laparoscopy to IVF Chair: <i>A. Watrelot, France</i> Expert: <i>V. Gomel, USA</i>	LIVE
Professor Gomel is certainly THE authority in tubal infertility and microsurgery. He has been the pioneer in the use of laparoscopy in the field of infertility and has always promoted a surgery that respect tissues and functions. In his lecture Victor Gomel will tell us his journey from laparotomy to MIS and IVF.		
21:05 – 21:45	HONORARY LECTURE: Enzian – A Comprehensive Classification of Endometriosis Expert: <i>J. Keckstein, Germany</i>	LIVE
Prof Joerg Keckstein is very well known as a brilliant surgeon dealing with very complex cases of deep endometriosis. Doing so, he understood the necessity of a good pre-operative classification to visualize better the disease before surgery and from that point made a classification that became a good predictive tool for difficulty. Not only that classification will help to organize the surgery, to be more efficient and make study to improve our outcomes.		

DAY 2: FEBRUARY 23, 2021

ONLINE ROOM 3

17:10 – 17:45	KEYNOTE LECTURE 2 – Neuropelveology Chair: <i>A. Wattiez, UAE</i> Expert: <i>M. Possover, Switzerland</i>	LIVE
<p>Neuropelveology is a new subspecialty that have been raised recently in front of the emergence of functional disorders due to nerve impairment. Who else than the father of this new specialty can explain to us how it is important!</p>		
17:45 – 19:00	Q&A DISCUSSION: CPP SESSION - “Demystifying chronic pelvic pain: An integrative approach to persistent pelvic pain” Chair: <i>S. As-Sanie, USA</i>	Q&A
<p>CPP is one of the main reasons why patients consult! Gynecologists are not well prepared to manage those patients as the problem is a mix of anatomical, peripheral and central neural system and pharmaceutical knowledge. Identifying the right reason of the pain is the start of the process to obtain a therapeutical strategy! All aspects are going to be discussed in that session.</p>		
17:45 – 18:15	KEYPOINTS – Discussion of Pre-Recorded Lectures <i>(Each speaker will have maximum 5 minutes to discuss key points of their lectures)</i>	
17:45 – 17:53	- Centralized pain: identification and practical strategies for the treatment of centralized pain in women with CPP - Not all pelvic pain is endometriosis: A systematic approach to chronic overlapping pelvic pain conditions <i>S. As-Sanie, USA</i>	
17:53 – 18:00	- Trauma Informed Care: Adapting the history and physical examination to better evaluate chronic pelvic pain - An update on vulvovaginal pain and sexual dysfunction <i>G. Lamvu, USA</i>	
18:00 – 18:05	Visceral vs. Somatic Pain: how and why it is important to identify them before performing surgery in women with CPP? <i>J. Carrillo, USA</i>	
18:05 – 18:10	Medical and behavioral therapies for CPP: practical strategies for addressing persistent post- surgical pain <i>S. Till, USA</i>	
18:10 – 18:15	Office procedures for chronic pelvic pain: nerve blocks, trigger point injections, and Botox for the GYN surgeon <i>M. Castellanos, USA</i>	
18:15 – 18:25	Q&A Discussion – Questions from Participants’ Portal	
18:25 – 18:35	Q&A Discussion – Questions from ZOOM Chat Box	
18:35 – 19:00	Q&A Discussion – VIP Session (Live)	

DAY 2: FEBRUARY 23, 2021

ONLINE ROOM 3

19:00 – 20:15	SYMPOSIUM – MEDTRONIC Mechanical Hysteroscopic Tissue Removal: TRUE benefits and CLEAR advantages across pathologies and clinical settings	
19:00 – 19:05	Video Highlights	
19:05 – 19:10	Welcome & Introduction <i>S. Nahas, USA</i>	
19:10 – 19:30	Office Hysteroscopy during and beyond COVID-19 <i>A. Di Spiezio Sardo, Italy</i>	
19:30 – 19:50	Mechanical Hysteroscopic removal of fibroids: a myth or a reality? <i>S. Nahas, USA</i>	
19:50 – 20:10	Changing the Paradigm in the Treatment of Early Pregnancy Loss <i>C. Miller, USA</i>	
20:10 – 20:20	Q&A Discussion	
20:20 – 21:45	IMAGING COURSE DAY 2 How can Gynecological Ultrasound and MRI help the surgeon? Chair: H. Gharbi, UAE	LIVE
<p>Imaging has always been important in the diagnosis of different gynecological pathologies. The recent advances in both technology and knowledge have brought an extensive capacity of imaging to help surgeons. The aim of this course is to describe how!</p>		
20:20 – 20:35	Normal Ultrasound Anatomy <i>J. Preisler, Chile</i>	
20:35 – 20:50	Normal MRI anatomy <i>D. Barahona, Chile</i>	
20:50 – 21:05	Anatomical abnormalities in Ultrasound <i>J. Preisler, Chile</i>	
21:05 – 21:20	Anatomical abnormalities in MRI <i>D. Barahona, Chile</i>	
21:20 – 21:30	Clinical Case Discussion	
21:30 – 21:40	Q&A Discussion	
21:40 – 21:45	Evaluation – Poll or Website Form	
21:45 – 21:50	CLOSING REMARKS <i>R. Campo, Belgium</i>	

DAY 3: FEBRUARY 24, 2021

ONLINE ROOM 1

17:00 – 17:10	WELCOME REMARKS & INTRODUCTION <i>A. Wattiez, UAE</i>	
17:10 – 17:45	KEYNOTE LECTURE 3 – Hysteroscopy: The True Revolution in Women Health Chair and Expert: <i>J. Hamou, France</i>	LIVE
<p>Jacques Hamou is the father of modern hysteroscopy that have been the true revolution in women healthcare. He started in the 80s and not only developed the techniques but look at instruments that provide safety and efficiency. Master in optic and in the mechanics of fluids and in uterine pathology he has all the ingredients to be at the start of this incredible story.</p>		
17:45 – 19:00	GENITAL MALFORMATION: Live Surgery from Moscow Chair: <i>A. Wattiez, UAE</i> Co-Chair: <i>W. Sammur, UAE</i>	LIVE
<p>Genital malformation are frequent and very dramatic on the quality of life of patient. Prof Adamian is the head of the gynecologic department which is the referral in Russia. Her experience is enormous, and she will share with us all tips and trick that she developed to secure excellent outcomes. Dr. Stepanian will share the lecture on the diagnosis of Mullerian anomalies, Prof Grimbizis will explain the classification of those malformations, Prof Brucker will discuss all available techniques and Dr. El Rahman will explain the Laparoscopic treatment of Herlyn-Werner Wunderleich Syndrome.</p>		
17:45 – 18:15	VIDEO PLAY AND KEYPOINTS – Keypoints for 5 minutes Diagnosis and Management of Mullerian Anomalies <i>A. Stepanian, USA</i>	
18:15 – 18:45	UNEDITED LIVE SURGERY WITH COMMENTS <i>L. Adamyan, Russia</i>	
18:45 – 19:00	Panel Discussion	
19:00 – 19:10	SPONSOR HIGHLIGHTS – ETHICON	
19:10 – 20:25	GENITAL MALFORMATION Chair: <i>A. Wattiez, UAE</i> Co-Chair: <i>W. Sammur, UAE</i>	LIVE
19:10 – 19:30	Genital Malformation: Classification <i>G. Grimbizis, Greece</i>	
19:30 – 19:50	Genital Malformation: Techniques <i>S. Brucker, Germany</i>	
19:50 – 20:10	Laparoscopic Treatment of Herlyn-Werner Wunderleich-Syndrome <i>I. El Rahman, UAE</i>	
20:10 – 20:25	Panel Discussion	

DAY 3: FEBRUARY 24, 2021

ONLINE ROOM 1

20:25 – 21:40	LIVE PANEL DISCUSSION: Laparoscopic Complications Chair: A. Watrelot, France Co-Chair: I. Siebert, South Africa	LIVE
Not all Complications are certainly unavoidable but most of them are! In this session Prof Pasic will explain to us the mechanism and the treatment but more importantly the way to prevent them.		
20:25 – 20:55	LIVE LECTURE & VIDEO PRESENTATION	
20:25 – 20:55	Laparoscopic Complications <i>P. Pasic, USA</i>	
20:55 – 21:40	LIVE PANEL DISCUSSION WITH Q&A	

DAY 3: FEBRUARY 24, 2021

ONLINE ROOM 2

17:10 – 17:45	KEYNOTE LECTURE 3 – Hysteroscopy: The True Revolution in Women Health Chair and Expert: J. Hamou, France	LIVE
Jacques Hamou is the father of modern hysteroscopy that have been the true revolution in women healthcare. He started in the 80s and not only developed the techniques but look at instruments that provide safety and efficiency. Master in optic and in the mechanics of fluids and in uterine pathology he has all the ingredients to be at the start of this incredible story.		
17:45 – 19:00	LIVE PANEL DISCUSSION: Tips to Fasten Myomectomy Chairs: B. Amro (UAE), R. Fernandes (Brazil), S. Maia (Portugal)	LIVE
Laparoscopic Myomectomy is a very frequent surgery performed by most of all gynecologists. The key strategic points will discuss by Prof Gilabert like the best way to do the myomectomy, the best technique of closure and how to avoid intra-operative and post-operative bleedings.		
17:45 – 18:15	LIVE LECTURE AND VIDEO PRESENTATION	
17:45 – 18:15	Tips to Fasten Myomectomy <i>J. Gilabert, Spain</i>	
18:15 – 19:00	LIVE PANEL DISCUSSION WITH Q&A	

DAY 3: FEBRUARY 24, 2021

ONLINE ROOM 2

19:00 – 19:10	SPONSOR HIGHLIGHTS – ETHICON	
19:10 – 20:25	Q&A DISCUSSION: Endometrioma Chair: <i>C. Miller, USA</i>	Q&A
<p>Endometriomas are often the revealing sign of endometriosis. As such, the discover of an endometrioma should lead to an extensive work-up to evaluate the severity of the disease and make the proper decisions for those patient looking for pregnancy. Surgery is associated with a decrease of the ovarian reserve and expectant management could also lead to the ovary destruction by the disease. All those aspects will be discussed in that session.</p>		
19:10 – 19:30	KEYPOINTS – Discussion of Pre-Recorded Lectures <i>(Each speaker will have maximum 5 minutes to discuss key points of their lectures)</i>	
19:10 – 19:15	Does Endometrioma Give Pain? <i>P. Koninckx, Belgium</i>	
19:15 – 19:20	Endometrioma In A Young Patient: What to Do? <i>A. Ussia, Italy</i>	
19:20 – 19:25	How Imaging Can Help the Surgeon to Make A Decision <i>A. Di Giovanni, Italy</i>	
19:25 – 19:30	Which Endometrioma Should We Operate? <i>C. Miller, USA</i>	
19:30 – 19:45	Q&A Discussion – Questions from Participants' Portal	
19:45 – 20:00	Q&A Discussion – Questions from ZOOM Chat Box	
20:00 – 20:25	Q&A Discussion – VIP Session (Live)	
20:25 – 21:40	Q&A DISCUSSION: Suspicious Adnexal Masses Chair: <i>M. Canis, France</i>	Q&A
<p>Suspicious adnexal masses should be considered malignant until proven otherwise. The importance of the surgeon experience in ovarian malignancies, the quality of the pre-operative assessment and the use of predictive scores are of importance to avoid catastrophic misdiagnosis. All those aspects will be discussed during this session.</p>		
20:25 – 20:45	KEYPOINTS – Discussion of Pre-Recorded Lectures <i>(Each speaker will have maximum 5 minutes to discuss key points of their lectures)</i>	
20:25 – 20:30	Laparoscopic Approach of Suspicious Mass <i>M. Puga, Chile</i>	
20:30 – 20:35	How Imaging Can Reduce the Suspicion <i>C. Exacoustos, Italy</i>	
20:35 – 20:40	Oncological Rules to Implement in All Case of Suspicious Mass <i>E. Leblanc, France</i>	
20:40 – 20:45	Pre-operative Assessment of Suspicious Mass <i>M. Canis, France</i>	
20:45 – 21:00	Q&A Discussion – Questions from Participants' Portal	
21:00 – 21:15	Q&A Discussion – Questions from ZOOM Chat Box	
21:15 – 21:40	Q&A Discussion – VIP Session (Live)	

DAY 3: FEBRUARY 24, 2021

ONLINE ROOM 3

17:10 – 17:45	KEYNOTE LECTURE 3 – Hysteroscopy: The True Revolution in Women Health Chair and Expert: J. Hamou, France	LIVE
----------------------	---	-------------

Jacques Hamou is the father of modern hysteroscopy that have been the true revolution in women healthcare. He started in the 80s and not only developed the techniques but look at instruments that provide safety and efficiency. Master in optic and in the mechanics of fluids and in uterine pathology he has all the ingredients to be at the start of this incredible story.

17:45 – 19:00	SYMPOSIUM – KARL STORZ The Advent of Ambulatory Hysteroscopy
----------------------	---

17:45 – 18:15	The Hysteroscopy Digital Clinic <i>R. Campo, Belgium</i>
---------------	---

18:15 – 18:45	The Power of Miniresectoscopic Surgery <i>A. Di Spiezio Sardo, Italy</i>
---------------	---

18:45 – 19:00	Q&A Discussion
---------------	----------------

DAY 3: FEBRUARY 24, 2021

ONLINE ROOM 3

19:00 – 19:10	SPONSOR HIGHLIGHTS – ETHICON	
19:10 – 21:40	WINNERS COURSE – ANATOMY	LIVE
	Chairs: G. Centini (Italy), B. Rabischong (France), E. Zakharchenko (Russia)	
	Know the anatomy, use the anatomy, and do not lose the anatomy! This motto should be print in every surgeon’s mind. The mastering of anatomy is the only way to optimize your surgical outcomes, reduce the risk of complication and make you an “predictable surgeon”. Do not miss it...	
19:10	Anatomy Guided Hysterectomy <i>H. Gharbi, UAE</i>	
19:30	Fascias, Muscles and Ligaments: Functional Organ Suspension <i>H. Ferreira, Portugal</i>	
19:50	Nerves Topography: Know the Path and Spare It <i>R. Fernandes, Brazil</i>	
20:10	Lateral Spaces in Benign procedures: How to enter softly in the spaces <i>B. Amro, UAE</i>	
20:30	Vascular Anatomy: Better to know before you cut <i>Z. Hakim, UAE</i>	
20:50	Pelvic Lymphadenectomy: A Systematic Approach <i>R. Fernandes, Brazil</i>	
21:10	Anatomical Reconstruction of the Pelvis: An Overview <i>G. Centini, Italy</i>	
21:30 – 21:40	General Discussion	
21:40 – 21:45	CLOSING REMARKS	
	<i>R. Campo, Belgium</i>	

DAY 4: FEBRUARY 25, 2021

ONLINE ROOM 1

8:00 – 8:10	MORNING WELCOME REMARKS & INTRODUCTION <i>A. Wattiez, UAE</i>	
8:00 – 17:00	LIVE BROADCASTING OF ROBOTIC DAY <i>In collaboration with American Hospital, Dubai (AHD)</i>	
17:00 – 17:10	SPONSOR HIGHLIGHTS – KARL STORZ	
17:10 – 17:20	AFTERNOON WELCOME REMARKS & INTRODUCTION <i>A. Wattiez, UAE</i>	
17:20 – 19:00	Q&A DISCUSSION: Hot Topics in Hysteroscopy <i>Chair: O. Shawki, Egypt</i>	Q&A
<p>Hysteroscopic techniques change the face of the modern approach of women treatment in all aspects: bleeding, fertility, pain, etc.... This panel of very expert faculties will cover all the most advanced topic in the field.</p>		
17:20 – 17:55	KEYPOINTS – Discussion of Pre-Recorded Lectures <i>(Each speaker will have maximum 5 minutes to discuss key points of their lectures)</i>	
17:20 – 17:25	Modern management of Infertility: "Looking inside cavity of uterus is more relevant than looking inside cavity of pelvis" <i>A. Di Spiezio Sardo, Italy</i>	
17:25 – 17:30	Uterine septum should be excised removed not just transected incision <i>S. Bettocchi, Italy</i>	
17:30 – 17:35	Office hysteroscopy is suitable for most operative procedures <i>S. Haimovich, Spain</i>	
17:35 – 17:40	Hysteroscopic approach for submucous myoma, attack capsule, not resect myoma <i>R. Lasmar, Brazil</i>	
17:40 – 17:45	Submucous myoma, enucleate and leave it inside cavity, no need take it out <i>A. S. Lagana, Italy</i>	
17:45 – 17:50	Dilemma of uterine distension and PPS, (pressure panic syndrome) <i>O. Shawki, Egypt</i>	
17:50 – 17:55	Shaver Technique: Why? <i>G. Bigatti, Italy</i>	
17:55 – 18:10	Q&A Discussion – Questions from Participants' Portal	
18:10 – 18:25	Q&A Discussion – Questions from ZOOM Chat Box	
18:25 – 19:00	Q&A Discussion – VIP Session (Live)	

DAY 4: FEBRUARY 25, 2021

ONLINE ROOM 1

19:00 – 20:15	Q&A DISCUSSION: Office Hysteroscopy: When, How & To Whom Chair: <i>R. Campo, Belgium</i>	Q&A
<p>Even if proven beneficial, only 20% of the hysteroscopic procedures feasible in an office environment are done in an office settings. This session will review the indications and the techniques and will answer to the difficulty in setting an office hysteroscopy unit.</p>		
19:00 – 19:15	KEYPOINTS – Discussion of Pre-Recorded Lectures (Each speaker will have maximum 5 minutes to discuss key points of their lectures)	
19:00 – 19:05	Updates on Office Hysteroscopy <i>S. Bettocchi, Italy</i>	
19:05 – 19:10	Difficulties in Setting an Office Hysteroscopy Unit <i>R. Abdeldayem, UAE</i>	
19:10 – 19:15	Role of the hysteroscopic morcellator in Office Hysteroscopy? <i>G. Bigatti, Italy</i>	
19:15 – 19:30	Q&A Discussion – Questions from Participants' Portal	
19:30 – 19:45	Q&A Discussion – Questions from ZOOM Chat Box	
19:45 – 20:15	Q&A Discussion – VIP Session (Live)	

DAY 4: FEBRUARY 25, 2021

ONLINE ROOM 2

17:20 – 18:45	WES Session – “In Endometriosis, you need to be prepared!” Chair: <i>S. Singh</i>	LIVE
<p>Endometriosis is a rare medical condition where a patient consulting 3 different doctors may have 3 different therapeutic strategies. Endometriosis should be treated by endometriosis surgeons who should place the patient in the center of the picture. Only expertise will help the surgeon to set his expectations and explain them to the patient. Information, awareness, and discussion should help the patient to set realistic expectation that are warrant of the success of the surgery.</p>		
17:20 – 17:45	Be prepared: Setting realistic expectations with the patient <i>L. Hummelshoj, UK</i>	
17:45 – 18:05	Be prepared: Setting realistic expectations for the surgeon - Pre-Operative Imaging <i>M. Leonardi, Canada</i>	
18:05 – 18:25	Be prepared: Deciding when surgery is the best solution <i>L. Whitaker, UK</i>	
18:25 – 18:45	Q&A Discussion	

DAY 4: FEBRUARY 25, 2021

ONLINE ROOM 2

18:45 – 20:15	Q&A DISCUSSION: Hot Topics in Minimal-Access Surgery “Present and Future of Minimal-Access Surgery in Myoma Therapy: Where do we go from here?” Chairs: <i>R. Devassy (UAE), R. De Wilde (Germany), V. Tanos (Cyprus)</i>	Q&A
<p>Myomas are responsible of more than 30% of the reason of abnormal uterine bleeding. Myomectomy have been for long the gold standard of the treatment. The recent recall of Esmya has deprived doctors of an medical tool to avoid surgery. The recent advances of non-invasive conservative techniques open the door to a new approach of myoma. This session will describe all techniques and discuss their respective indications and results.</p>		
18:45 – 19:15	KEYPOINTS – Discussion of Pre-Recorded Lectures (Each speaker will have maximum 5 minutes to discuss key points of their lectures)	
18:45 – 18:50	Laparoscopic Conservative Myoma Therapy <i>V. Tanos, Cyprus</i>	
18:50 – 18:55	Myoma Morcellation: Myths and Facts <i>S. Becker, Germany</i>	
18:55 – 19:00	Safe and Feasible Myoma Morcellation to avoid benign or malignant spreading in Laparoscopic Surgery <i>R. Devassy, UAE</i>	
19:00 – 19:05	Ultrasound-guided Non-surgical Treatment of Myomata: An Alternative Therapy or Evolution? <i>H. C. Verhoeven, Germany</i>	
19:05 – 19:10	See the Phoenix to believe it: The Singapore experience with clinical application of High-frequency Ultrasound Ablation in Myoma Treatment <i>K. W. Lee, Singapore</i>	
19:10 – 19:15	Evidence of safety and efficacy in High-frequency Ultrasound Ablation: the European experience <i>D. Cranston, UK</i>	
19:15 – 19:30	Q&A Discussion – Questions from Participants’ Portal	
19:30 – 19:45	Q&A Discussion – Questions from ZOOM Chat Box	
19:45 – 20:15	Q&A Discussion – VIP Session (Live)	

DAY 4: FEBRUARY 25, 2021

ONLINE ROOM 3

17:20 – 20:00	WINNERS COURSE – ANATOMY	LIVE
	Chairs: <i>G. Centini (Italy), B. Rabischong (France), E. Zakharchenko (Russia)</i>	
	Know the anatomy, use the anatomy and do not lose the anatomy! This motto should be print in every surgeon's mind. The mastering of anatomy is the only way to optimize your surgical outcomes, reduce the risk of complication and make you an "predictable surgeon". Do not miss it...	
17:20	Rules of Dissection: Let's Follow the Rules <i>A. Wattiez, UAE</i>	
17:40	Approaching the Anterior Compartment Endometriosis <i>K. Afors, UK</i>	
18:00	How to Transform the Ureter in good friend <i>I. Argay, Hungary</i>	
18:20	The Para cervix State of the Art <i>R. Rovira, Spain</i>	
18:40	Standard Approach to Posterior Endometriosis <i>F. Osorio, Portugal</i>	
19:00	Anatomical Approach to Radical Hysterectomy <i>M. Puga, Chile</i>	
19:20	Anterior Pelvic Spaces (Retzius, paravesical, difficult cases of vesicovaginal) <i>J. Alves, Portugal</i>	
19:40 – 19:50	General Discussion	
19:50 – 20:00	Evaluation	
20:00 – 20:15	SPONSOR HIGHLIGHTS – MIS ACADEMY	
20:15 – 20:20	CLOSING REMARKS <i>R. Campo, Belgium</i>	

DAY 4: FEBRUARY 25, 2021

MAIN CONFERENCE ROOM

Venue: American Hospital Dubai, Oud Metha, Dubai, UAE | Broadcasted

8:30 – 8:45	SPONSOR HIGHLIGHTS – MIS ACADEMY	
8:45 – 9:00	SPONSOR HIGHLIGHTS – ETHICON	
9:00	MORNING WELCOME REMARKS & INTRODUCTION <i>H. Moussa (UAE), F. Reguig (UAE)</i>	
9:00 – 10:00	ROBOTIC DAY – Part 1: WORKSHOP <i>In collaboration with American Hospital, Dubai (AHD)</i> By: H. Moussa (UAE), F. Reguig (UAE)	LIVE

Robotic surgery became more and more present in our daily practice. The new development of intelligence given to these machines open the door to better clinical outcomes, changes in techniques and more adhesions to robotic practice. All these new aspects are being developed during this day.

10:00 – 10:30	Preparation and Briefing for Workshop Group Rotation By: H. Moussa (UAE), F. Reguig (UAE)	
10:00 – 10:30	WORKSHOP – Group 1	
10:30 – 11:00	WORKSHOP – Group 2	
11:00 – 11:30	WORKSHOP – Group 3	
11:30 – 12:00	WORKSHOP – Group 4	

***The hands-on workshop will be conducted at the Operating Room of American Hospital by groups with maximum of 5 people each**

***Other groups will wait at the American Hospital conference room and watch the parallel broadcast of the Live Surgery "Robot-Assisted laparoscopic colorectal resection in patient w/ deep infiltrating endometriosis" being done from Russia while waiting for their turn.**

10:00 – 12:00	Robot-Assisted Laparoscopic Colorectal Resection in patient with Deep Infiltrating Endometriosis Chairs: F. Anton (Russia), A. Koval (Russia) Surgeon: P. Alexander, Russia	LIVE
----------------------	--	-------------

Deep endometriosis with bowel involvement requires a lot of surgical skills. Live from Moscow, Professor Popov will demonstrate the efficacy of the robot dealing with this difficult procedures.

LUNCH BREAK (12:00 – 13:00)

DAY 4: FEBRUARY 25, 2021

MAIN CONFERENCE ROOM

Venue: American Hospital Dubai, Oud Metha, Dubai, UAE | Broadcasted

13:00 – 17:00	ROBOTIC DAY – Part 2 – LECTURES <i>In collaboration with American Hospital, Dubai (AHD)</i>	LIVE
13:00 – 13:05	Transfer time	
13:05 – 13:15	Welcome Introduction & Remarks <i>M. Tahlak (UAE), A. Wattiez (UAE), T. Dufan – CMO of American Hospital Dubai</i>	
13:15 – 13:35	Welcome Keynote Lecture – “Inventing the Future in Surgery: Imaging, Robotic & Artificial Intelligence, the 3 weapons to achieve a Smart Surgery” <i>J. Marescaux, France</i>	
13:35 – 14:00	Lecture – “Initial Experience in Robotic-Assisted General Surgery in Dubai” <i>H. Moussa, UAE</i>	
14:00 – 16:30	LECTURES <i>(Each speaker will have maximum 20 minutes to discuss their lectures and 5 minutes discussion after each lecture)</i>	
14:00 – 14:25	Urology: <i>R. Amrith, UAE: “Recent Advances in Robotic Urology”</i>	
14:25 – 14:50	OB/GYN: <i>A. Brignoni, UAE: “Transitioning into GYN robotic surgery”</i>	
14:50 – 15:15	OB/GYN: <i>S. Francis, UAE: “Robotic Surgery Training, the experience of a gynecologist”</i>	
15:15 – 15:40	Urology: <i>T. Piechaud, France: “Actual place of robotic surgery in Urology”</i>	
15:40 – 16:05	Gynecology: <i>A. Advincula, USA: “Recent updates of the use of robot in Gynecology”</i>	
16:05 – 16:30	Oncology: <i>J. Magrina, USA: “Recent updates of the use of robot in Oncology”</i>	
16:30 – 16:50	ROBOTIC DAY – Part 3 – CLOSURE LECTURE <i>In collaboration with American Hospital, Dubai (AHD)</i>	LIVE
16:30 – 16:50	Closure Lecture – “Intelligence and Robotic in Surgery” <i>A. Melani, Brazil</i>	
16:50 – 17:00	CLOSING REMARKS <i>M. Tahlak (UAE), A. Wattiez (UAE), T. Dufan – CMO of American Hospital Dubai</i>	

DAY 4: FEBRUARY 25, 2021

OPD AUDITORIUM 1

Venue: American Hospital Dubai, Oud Metha, Dubai, UAE | Non-Broadcasted

8:30 – 9:00	MORNING WELCOME REMARKS & INTRODUCTION <i>O. Shawki, Egypt</i>	
8:30 – 14:30	HYSTEROSCOPY: HANDS-ON WORKSHOP – with Simulators Faculty: <i>O. Shawki, Egypt</i>	ONSITE
Everything starts by practice. With Prof. Shawki as a mentor, all small technical tips will be reviewed. Places are limited... Hurry up!		
14:30 – 17:00	RESIDENT SESSION Chair: <i>O. Shawki, Egypt</i> Moderator: <i>L. Alhubaishi, UAE & Z. Hakim, UAE</i>	ONSITE
Residents are the pillars of teaching hospitals. The few years they live there are essential for them to acquire their skills. The aim of this session is to be at the same time academic and practical! With clinical case discussions and hands-on sessions this event will bring a lot to the participants.		
14:30 – 14:40	Introduction <i>O. Shawki, Egypt</i>	
14:40 – 16:10	Hands-On Workshop "Find you way to the UTERUS"	
16:10 – 16:40	Lecture: "Applied Surgical Anatomy" <i>Z. Hakim, UAE</i>	
16:40 – 16:50	Conclusions	
16:50 – 17:00	CLOSING REMARKS <i>O. Shawki, Egypt</i>	

DAY 5: FEBRUARY 26, 2021

ONLINE ROOM 1

8:00 – 18:00 **LIVE BROADCASTING OF ONSITE SESSIONS**

MAIN CONFERENCE ROOM

Venue: American Hospital Dubai, Oud Metha, Dubai, UAE | Broadcasted

8:00 – 8:10 **WELCOME REMARKS & INTRODUCTION**
A. Wattiez (UAE)

8:10 – 9:40 **SYMPOSIUM – ETHICON**
Laparoscopy for Endometriosis
Expert: V. Chiantera

DAY 5: FEBRUARY 26, 2021

MAIN CONFERENCE ROOM

Venue: American Hospital Dubai, Oud Metha, Dubai, UAE | Broadcasted

9:40 – 12:40	HYSTEROSCOPY: LIVE SURGERIES – with Lecture Discussions Chairs: <i>S. Gordts (Belgium), G. Grimbizis (Greece)</i> Surgeons: <i>R. Campo (Belgium), A. Di Spiezio (Italy), U. Catena (Italy), G. Bigatti (Italy)</i>	LIVE
<p>The LEC methodology is a new concept of precision medicine for efficient, accurate, patient friendly uterine diagnosis and treatment. It combines office and ambulatory surgical care with improved imaging technology and a very novel organisation model as such also efficient during the COVID-19 threat. This session will show a novel approach to ambulatory hysteroscopic surgery with surgeries for Adenomyosis, Congenital malformations, Myomectomy, Placental remnants, and some special challenging cases. A session should not be missed if you are interested in Hysteroscopy!</p>		
9:40 – 9:50	Introduction – LEC Methodology <i>R. Campo, Belgium</i>	
9:50 – 10:30	- Digital Hysteroscopy Clinic: Life Expert Centre Methodology - Adenomyosis: Challenging Uterine Pathology <i>R. Campo, Belgium & S. Gordts, Belgium</i> Q&A and poll questions	
DISCUSSION EXPERTS <i>K. Isaacson (USA), E. Saridogan (UK), T. Carugno (USA), R. Molinas (Paraguay)</i>		
10:30 – 11:10	DHC Rome - How to manage uterine septum and dysmorphic uterus <i>A. Di Spiezio Sardo, Italy</i> Q&A and poll questions	
DISCUSSION EXPERTS <i>L. Alonso (Spain), C. De Angelis (Italy), S. Bettocchi (Italy), J. Hamou (France)</i>		
11:10 – 11:50	DHC Rome - How to manage Early Endometrial Cancer in young patients and modern approach to myoma resection <i>U. Catena, Italy</i> Q&A and poll questions	
DISCUSSION EXPERTS <i>L. Alonso (Spain), C. De Angelis (Italy), S. Bettocchi (Italy), J. Hamou (France)</i>		
11:50 – 12:30	DHC Shanghai Renji Hospital - How to manage placental remnants <i>G. Bigatti, Italy</i> Q&A and poll questions	
DISCUSSION EXPERTS <i>L. Feng (China), S. Ansari (Iran), A. Tinelli (Italy), B. Herendael (Belgium)</i>		
12:30 – 12:40	Conclusions <i>S. Gordts, Belgium & G. Grimbizis, Greece</i>	
LUNCH BREAK (12:40 – 13:40)		

DAY 5: FEBRUARY 26, 2021

MAIN CONFERENCE ROOM

Venue: American Hospital Dubai, Oud Metha, Dubai, UAE | Broadcasted

13:40 – 14:15	KEYNOTE LECTURE 4 – Fetal Surgery: where are we? Chair: <i>R. Campo, Belgium</i> Expert: <i>J. Deprest, Belgium</i>	LIVE
----------------------	--	-------------

Fetal surgery started years ago. First limited to transfuser-transfused twins, then diaphragmatic hernia and now spina bifida, fetal surgery evolved prudently with protocol. Prof Deprest who is one of the pioneer of this surgery will summarize for us the updated situation of it.

14:15 – 14:30	SPONSOR HIGHLIGHTS – KARL STORZ	
14:30 – 17:00	HYSTERECTOMY – Live Surgeries with Lecture Discussions Chairs: <i>J. Keckstein (Germany), E. Milnerowicz (Poland)</i> Surgeons: <i>F. Osorio (Portugal), H. Ferreira (Portugal), M. Puga (Chile), R. Fernandes (Brazil), A. Wattiez (UAE)</i>	LIVE

Every surgeon has his own technique and preference. If the trunk of the hysterectomy technique is well designed there is room to choose a different energy or to apply sequences in a different order. This is the aim of this session for every surgeon to explain the rationale behind his choices.

14:30 – 14:55	BIP – <i>F. Osorio, Portugal</i>
14:55 – 15:20	LIG – <i>H. Ferreira, Portugal</i>
15:20 – 15:45	HARM. – <i>M. Puga, Chile</i>
15:45 – 16:10	UT. ART ORIGIN – <i>R. Fernandes, Brazil</i>
16:10 – 16:35	COMPLEX HYST. – <i>A. Wattiez, UAE</i>
16:35 – 17:00	Panel Discussion

DAY 5: FEBRUARY 26, 2021

OPD AUDITORIUM 1

Venue: American Hospital Dubai, Oud Metha, Dubai, UAE | Non-Broadcasted

8:30 – 14:30	CERTIFICATION 8:30 – 13:30: L1 – Bachelor in Endoscopy 8:30 – 14:30: L2 – MIGS Certificate	ONSITE
8:30	Arrival of the Candidates Identification check, sign-in, Candidates are assigned to a workstation	
9:00	TESTT (Theoretical Exam)	
10:30	LASTT1 – SUTT1 HYSTT1	
14:30	END OF CERTIFICATION – Results will not be announced	
LUNCH BREAK (13:00 – 14:00)		
15:00 – 18:00	NURSE SESSION – In MIS, Nurses make the difference Chair: A. Abo Sekena, UAE	ONSITE
<p>Nurses are essential in MIS practice. After a good training it has been shown that they can reduce the operative time drastically. To team up with the surgeon, the anesthetist and the nurse is the “sine qua non” condition to obtain an optimal result and decrease the risk of complications.</p>		
15:00 – 15:30	The nurses are key in MIS procedures (What is the role of nurses?) <i>W. Winer, USA</i>	
15:30 – 16:00	The MIS Postoperative Journey <i>L. R. Ninan, UAE</i>	
16:00 – 16:30	Infection risks associated with MIS instruments? <i>A. Abo Sekena, UAE</i>	
16:30 – 17:00	The MIS instruments: Advancement in surgical instruments and needs in advanced reprocessing <i>KARL STORZ</i>	
17:00 – 17:30	Surgical Nursing Solutions Hysteroscopy Workshop <i>MEDTRONIC</i>	
17:30 – 18:00	General Discussion	
18:00	CLOSING REMARKS
